

Lin Hua Chung

Frontend Developer

 +84 849966277  chunglh1304@gmail.com  <https://github.com/linhuachung>  Ho Chi Minh city, VietNam

SUMMARY

I am a Frontend Developer with over **3 years** of experience creating responsive web applications for the **Japanese** and **U.S. markets**. As a key member, I specialize in **ReactJS**, **NextJS**, and delivering seamless user experiences. I have **1 year** of Backend experience. I ensure robust integration and performance for full-stack projects. I am a person who is willing to learn and adapt to new technologies, enjoys an environment of long-term commitment.

EDUCATION

Cybersoft Academy

2020 - 2021

Fullstack Developer Certificate

- Score: **9.0** - Professional Front-end Developer
- Score: **9.0** - Professional NodeJS Developer

Ho Chi Minh City Open University

2016 - 2021

Computer Science

SKILLS

Frontend:

- HTML5, CSS3, CSS Preprocessors (SASS/SCSS),
- Responsive Design

Backend:

- MongoDB, MySQL, PostgreSQL
- RESTful API Development
- Microservices Architecture

Programing language:

JavaScript/ Typescript.

Library:

Lodash, i18next, Axios, TanStack query.

ReactJS:

- ReactJS core principle (class/functional component, JSX, state, props, hook, styling, routing, HOC).
- State management: Redux, Redux toolkit, Redux-saga, Zustand.
- UI component: MaterialUI, Ant Design, TailwindCSS.
- Module bundler: Webpack.
- Form library: Formik, Yup, Zod, React Hook Form.
- Framework: NextJS (SSG, SSR, CSR, ISR, file system routing).

NodeJS:

- Core Concepts: Event-driven architecture, asynchronous programming, non-blocking I/O.
- Frameworks and Libraries: ExpressJS, NestJS.
- Authentication and Authorization: JWT.
- API Development: RESTful APIs.
- Package Management: Yarn, npm.
- Build Tools: Webpack, Babel.
- Security: Data validation and sanitization (Zod, express-validator).
- File Management: Multer, Cloud storage (AWS S3, Google Cloud Storage).

Source control:

Git, Gitlab, Jira, Bitbucket.

WORK EXPERIENCE

Mercatus Technologies Inc

03/2024 - Present

Frontend Developer

- **Key contributor, lead new member.**
- Develop web application user interfaces using **HTML**, **CSS** and **JavaScript**.
- Collaborate with over 30 members to ensure product quality and efficiency.

BAP IT Co., JSC

02/2022 - 02/2024

Fullstack Developer

- **Key contributor.**
- Develop both **Frontend** and **Backend** for web applications using **JavaScript**, **NodeJS** and **ReactJS**.
- Analyze and **provide solutions directly** for customers
- Collaborate with over 10 members to ensure product quality and efficiency.

FPT Software

09/2021 - 01/2022

Frontend Developer

- Develop internal applications for managing customer information.
- Develop UIs using **HTML**, **CSS**, **JavaScript**, and **Websquire5**.

PROJECTS

Mercatus

(03/2024 - Present)

Company	Mercatus Technologies Inc
Project description	An e-commerce platform for US and Canadian customers, operating as an online supermarket. Enabled efficient shopping and order tracking with integrated transaction management. Delivered a seamless user experience through a user-friendly interface.
Your team size	30+
Your position in project	Frontend developer.
Technology	NextJS, AngularJS, Drupal
Roles and responsibilities	<ul style="list-style-type: none">• Be a key member of the project.• Lead new member entering into the project.• Optimize website performance.• Develop and enhance an e-commerce platform for US and Canada markets.• Collaborate with cross-regional teams to align on features and resolve issues.• Analyze customer requirements to ensure user-focused solutions.• Design responsive interfaces and integrate backend APIs for seamless performance.• Make documentation for the project.• Research to optimize system efficiency, scalability, and maintainability.

DroneX

(02/2023 - 02/2024)

Company	BAPITCo.,JSC
Project description	A comprehensive project aimed at monitoring and managing legal flight zones for drones in the Japanese market. It includes features such as viewing legally designated flight zones and registering for Flycam flight licenses.
Your team size	9+
Your position in project	Frontend developer.
Technology	ReactJS, Redux Toolkits, AntDesign.
Roles and responsibilities	<ul style="list-style-type: none">• Develop foundational aspects and conceptualize interface design.• Collaborate with team to analyze features and ensure proper data flow.• Design user interfaces from mockups, focusing on intuitive and aesthetic principles.• Integrate backend APIs to enhance user experience.• Research and build efficient, scalable, and maintainable source code.

Bintech

(02/2022 - 01/2023)

Company	BAPITCo.,JSC
Project description	A green environmental project in the Japanese market, primarily serving Japanese customers. It allows users to order garbage trucks to handle industrial waste.
Your team size	5+
Your position in project	Fullstack developer.
Technology	ReactJS, Redux Saga, Sass, AntDesign, NodeJS, ExpressJS.
Roles and responsibilities	<ul style="list-style-type: none">• Analyze customer needs and collaborate with teams to devise solutions.• Develop and maintain features, integrate APIs, and resolve issues efficiently.• Design and manage backend systems, database schemas, and server-side logic.• Debug and optimize performance while ensuring security and scalability.• Collaborate with frontend developers for seamless integration.

Shinhan Bank

(10/2021 - 01/2022)

Company	FPT Software
Project description	Developed an internal application to improve operational efficiency by streamlining customer information management. Enabled seamless data entry and enhanced customer relationship management. Facilitated effective communication and data management within the organization.
Your team size	11+
Your position in project	Frontend developer, Business analyst.
Technology	HTML, CSS, Javascript, Java Core, WebSquare5.
Roles and responsibilities	<ul style="list-style-type: none">• Analyze customer needs and collaborate with teams to develop effective solutions.• Assess input screen functions and report issues for resolution.• Maintain and develop features based on customer requests, ensuring efficiency.• Integrate backend APIs for seamless functionality.• Research and build efficient, error-free source code.
