SUMMARY

I am a Frontend Developer with **over 3 years** of experience creating responsive web applications for the **Japanese** and **U.S. markets**. As a **key member**, I specialize in **ReactJS**, **NextJS**, and delivering seamless user experiences. I have **1 year** of Backend experience. I ensure robust integration and performance for full-stack projects. I am a person who is willing to learn and adapt to new technologies, enjoys an environment of long-term commitment.

EDUCATION

Cybersoft Academy   2020 - 2021

Fullstack Developer Certificate

- Score: 9.0 - Professional Front-end Developer
- Score: 9.0 - Professional NodeJS Developer

Ho Chi Minh City Open University   2016 - 2022

Computer Science

- Bachelor's degree in Computer Science.

SKILLS

Frontend:	● HTML5, CSS3, CSS Preprocessors (SASS/SCSS). ● Responsive Design.
Backend:	● RESTful API Development.
Programing language:	● JavaScript/ Typescript.
ReactJS:	● ReactJS core principle (class/functional component, JSX, state, props, hook, styling, routing, HOC). ● State management: Redux, Redux toolkit, TanStack query. ● UI component: MaterialUI, Ant Design, TailwindCSS. ● Form library: Formik, Yup, Zod, React Hook Form. ● Framework: NextJS (SSG, SSR, CSR, ISR, file system routing).
NodeJS:	● Core Concepts: Event-driven architecture, asynchronous programming, non-blocking I/O. ● Frameworks and libraries: ExpressJS, ● API Development: RESTful APIs.
Source control:	● GitLab CI/CD.Git, Gitlab, Jira, Bitbucket.
DevOps & Deployment:	● CI/CD: GitHub Actions, GitLab CI/CD.
Soft skills:	● Scrum, Agile (Proficient in organizing Sprint Planning, Daily Standups, and Sprint Retrospectives). ● Collaboration tools like Backlog, Jira, and Confluence.
Foreign Languages:	● English - Intermediate (B2 level).

WORK EXPERIENCE

Mercatus Technologies Inc   03/2024 - Present

Frontend Developer

- **Key contributor, lead new member.**
- Develop web application user interfaces using AngularJS, HTML, CSS and JavaScript.
- **Collaborate with over 30 members** to ensure product quality and efficiency

BAP IT Co., JSC   02/2022 - 02/2024

Fullstack Developer

- **Key contributor.**
- Develop both Frontend and Backend for web applications using JavaScript, NodeJS and ReactJS.
- Analyze and provide solutions directly for customers
- Collaborate with over 10 members to ensure product quality and efficiency.

FPT Software   09/2021 - 01/2022

Frontend Developer

- Develop internal applications for managing customer information.
- Develop UIs using HTML, CSS, JavaScript, and Websqure5.

PROJECTS

Mercatus
(03/2024   -   03/2025   )

Company	Mercatus Technologies Inc
Project description	An e-commerce system for customers in the US and Canada, functioning as online supermarket.
Your team size	30+
Your position in project	Frontend developer.
Technology	ReactJS, NextJS
Roles and responsibilities	• Optimized UI/UX for seamless cross-device experiences. • Integrated APIs for orders and payments, enhancing efficiency. • Improved performance and codebase for speed and stability. • Tested and debugged to ensure product quality. • Collaborated with teams to streamline development.

DroneX
(02/2023   -   02/2024   )

Company	BAP IT Co., JSC
Project description	A comprehensive project aimed at monitoring and managing legal flight zones for drones in the Japanese market.
Your team size	9+
Your position in project	Frontend developer
Technology	ReactJS, Redux Toolkits, AntDesign.
Roles and responsibilities	• Designed and developed intuitive user interfaces. • Ensured smooth data flow through team collaboration. • Integrated backend APIs to enhance UX. • Built scalable and maintainable code.

Bintech
(02/2022 - 01/2023)

Company	BAP IT Co., JSC
Project description	A green environmental project in the Japanese market, primarily serving Japanese customers.
Your team size	5+
Your position in project	Fullstack developer.
Technology	ReactJS, Redux Saga, Sass, AntDesign, NodeJS, ExpressJS.
Roles and responsibilities	• Analyzed customer needs and devised optimal solutions. • Developed and maintained fullstack features, ensuring smooth API integration. • Designed and optimized system architecture, enhancing scalability. • Improved performance, ensuring security and efficiency. • Collaborated across teams for seamless development and deployment.

Shinhan Bank
(10/2021 - 01/2022)

Company	FPT Sofware
Project description	Development an internal application to improve operational efficiency by streamlining customer information management.
Your team size	11+
Your position in project	Frontend developer, Business analyst.
Technology	HTML, CSS, Javascript, Java Core, WebSquare5.
Roles and responsibilities	• Evaluated input screens and reported issues for improvement. • Maintained and enhanced features, ensuring optimal performance. • Integrated backend APIs for seamless functionality. • Researched and implemented efficient, error-free code.
